## EXPERIENCE

---

### Associate Web Application Engineer at Rightwave

April 2024 - Current

- **Implemented different web pages:** Enhanced development quality and design, focusing on efficient web page performance and user experience.
- **Salesforce:** Developed various **dashboards** and reports within Salesforce. Gained proficiency in **APEX** for integration and development.
- **Marketo:** Acquired knowledge of Marketo and its features for **CRM**, exploring effective strategies and functionalities.
- **ROI:** Collaborated on creating a return on investment (ROI) report using Salesforce data.
- **RDN:** Developed a real-time data normalization system using **React**, **Python**, and **Django**. Implemented flagging and cache-based data retrieval with **Redis**, ensuring data integrity during database outages.

### Web Developer Intern at Oasis Infobytes

June 2023 - August 2023

- Gained experience in **designing** and **developing responsive web pages** as an intern.
- Developed a **responsive page for an eCommerce website**, including a cart **button** and **item numbers** on each **card** or **item**.
- Tech Stack: **HTML**, **CSS**, **JavaScript**, **Bootstrap**.

## PROJECTS

---

### Paytm WebApp | [Github](#) | [React.js](#) — [Express](#) — [JWT](#) — [MongoDB](#) — [Zod](#)

2024

- **Core Features:** User Authentication, Dashboard with User Search, Money Transfer Functionality.
- **Authentication:** **JWT** for enhanced security.
- **Input Validation:** Utilized **Zod** to ensure data integrity and prevent errors.
- Implemented **MongoDB** transactions and session handling for maintaining **ACID properties**, ensuring reliability and consistency in financial transactions.

### Personal Portfolio | [Github](#) | [HTML](#) — [CSS](#) — [Js](#) — [React.js](#) — [Tailwind](#) — [Material UI](#)

2023

- Responsive portfolio website utilizing **ReactJS**, **Material UI**, and **custom styling**. Prioritized accessibility and inclusivity, **integrating dynamic animations** and **transitions** to enhance the user experience and showcase diverse projects.
- **Architected and Developed:** Created a responsive portfolio website with **custom styling**.
- **Project Showcase:** Successfully showcased diverse projects, demonstrating a wide range of skills and competencies.

### Weather application | [Github](#) | [Reactjs](#) — [MongoDB](#) — [Express](#) — [JavaScript](#)

2023

- **Developed** a fully responsive weather app using **ReactJS** and **Node.js/Express**.
- **Integrated** real-time weather updates via third-party APIs with dynamic, colorful changing backgrounds.
- **Designed** a clean user interface with **Material UI** and custom styling.
- **Optimized** for fast performance and responsiveness using **Redux**.
- **Deployed** on Heroku with rigorous testing and regular maintenance.

## TECHNICAL SKILLS

---

**Languages:** HTML, CSS, JavaScript, Java, Servlets, Python, C++, TypeScript, APEX.

**Technologies/Frameworks:** MongoDB, PostgreSQL, Express.js, React.js, RESTful APIs, Node.js, Django, Agile Methodologies, Celery.

**Developer Tools:** GitHub, Git, Postman, Salesforce, PyCharm, IntelliJ IDEA, Redis.

**Other Tools:** Formspree, Netlify, Eclipse, Visual Studio.

## EDUCATION

---

### GL Bajaj Group of Institutions, Mathura, U.P.

2020 – 2024

*BTech - Computer Science and Engineering - CGPA - 7.5+*

*Mathura, U.P.*

## Coding Platforms

---

- **Leetcode:** Solved **200+** Problems 
- **GeeksforGeeks:** Solved **200+** Problems
